The Environmental Assessment Act, 1975

Exemption Section 30

Having received a request from the Ministry of the Environment that the undertaking namely:

The activity of constructing:

1. the Regional Municipality of Sudbury—Town of Valley East (McCrea Heights) Provincial Water Works Project #5-0237, consisting of a trunk watermain and distribution system conveying water from the newly developed wells to the McCrea Heights area of the town; and
2. the Township of Clarence (Community of Clarence Creek) Provincial Water Works Project #6-0242, consisting of a trunk watermain from wells #1, #3 and #4 to hook up to the main pumping station leading into the existing distribution system as well as a connection from Well #2 to a new treatment unit followed by a main to a standpipe leading into the distribution system,

be exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

1. The public will be interfered with by delaying the development of facilities upon which the owners of existing homes are depending to ensure a secure water supply for the McCrea Heights area of Valley East;
2. The Community of Clarence Creek and its residents will be interfered with and damaged by delaying a project consisting of running about 2,200 feet of 4" trunk watermain from the existing community wells to the existing distribution system for the community as well as providing treatment to correct chronic taste and odour problems; and

Having been advised that these two works were inadvertently omitted from the request for Exemption Order MOE-8 dated October 5, 1977 which was

printed in The Ontario Gazette issue for October 29, 1977 and were intended to be constructed in conjunction with the works listed in that exemption order as

—Regional Municipality of Sudbury (Bleazard Valley Area);

—Township of Clarence (Bourget); and

Having weighed such injury, damage, or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order that the undertaking is exempt from the application of the Act for the following reasons:

1. The undertaking was well underway before the Act came into force for such projects and had reached a sufficiently advanced stage that the interference with the proponents which would be caused by the application of the Act would be undue;
2. The two works were only omitted from Exemption Order MOE-8 by inadvertence;
3. Both projects involve running watermain within existing road allowances in order to supply the communities and as a result there will be no environmental degradation except for temporary disruptions during the construction period.

This exemption is subject to the same terms and conditions as those works exempted under Exemption Order MOE-8.

This order comes into force and has effect on and after the date upon which it is signed.

Dated at Toronto, this 28th day of April, 1978.

GEORGE R. MCCAGUE,
Minister of the Environment.

The Crop Insurance Act (Ontario)

CONTRACT OF INSURANCE

Between:

THE CROP INSURANCE COMMISSION OF ONTARIO,
hereinafter referred to as "THE COMMISSION",

OF THE FIRST PART;

— and —

.....

of the.....of.....

in the County (or as the case may be) of

....., hereinafter referred to as "THE INSURED PERSON",

OF THE SECOND PART.

WHEREAS the insured person has applied for crop insurance on one or more vine crops under The Crop Insurance Plan for Vine Crops, herein-after referred to as "the plan";

NOW THEREFORE, subject to *The Crop Insurance Act (Ontario)* and the regulations made thereunder, where in a crop year the insured person suffers a loss resulting from one or more of the perils designated in the plan, the Commission, subject to the terms and conditions hereinafter set forth, agrees to indemnify the insured person in respect of such loss.

CAUSES OF LOSS NOT INSURED AGAINST

1. This contract does not insure against and no indemnity shall be paid in respect of a loss resulting from,

- (a) the negligence, misconduct or poor farming practices of the insured person or his agents or employees;
- (b) a shortage of labour or machinery;
- (c) insect infestation or plant disease unless recommended spray programs were followed; or
- (d) a peril other than the perils designated in the plan.

EXTENT OF INSURANCE

2.—(1) The insured person shall offer for insurance all acreage planted in the crop year to the insured crop or crops on the farm or farms operated by him in Ontario, and, subject to subparagraph 2, this contract applies to all such acreage under contract to the processor or processors named in the application for insurance herein.

(2) This contract does not apply to, and no indemnity is payable in respect of, acreage planted to an insured crop,

- (a) that was not adequately prepared for cropping purposes;
- (b) that, in the opinion of the Commission, is not insurable;
- (c) for which a contract between the insured person and the processor is not in effect; or
- (d) on which the insured crop is a volunteer crop.

3.—(1) Where the acreage planted by the insured person in the crop year is not the same as that stated in the application for insurance the insured person shall, not later than the 15th day of July, notify the Commission in writing of the actual acreage planted.

(2) Where the actual planted acreage of an insured crop is less than that stated in the application for insurance, the maximum amount of indemnity shall be reduced proportionately.

(3) Where the actual planted acreage of an insured crop is more than that stated in the application for insurance, the maximum amount of indemnity and the premium payable shall not be increased but the value of production for the total planted acreage determined in the manner prescribed by section 10 of the plan shall be included in establishing the income of the insured person unless the processor increases the contract acreage accordingly.

HARVESTING OF PLANTED ACREAGE

4.—(1) All acreage planted to an insured crop in the crop year shall be harvested for processing unless the Commission, upon application therefor in writing, consents in writing to,

- (a) the use of the planted acreage or any part thereof for another purpose; or
- (b) the abandonment or destruction of the insured crop or any part thereof.

(2) The final date for the harvesting referred to in subparagraph 1 is noon on the 1st day of November or such other date as may be determined from time to time by the Commission.

(3) Where the harvesting of any planted acreage is not completed on the date prescribed by subparagraph 2, the insured person shall forthwith notify the Commission in writing.

(4) Where an insured person fails to notify the Commission in accordance with subparagraph 3, no indemnity shall be paid in respect of unharvested acreage.

STAGE 1

5.—(1) Stage 1 comprises the period from the date on which the planting of the acreage is completed to the 30th day of June.

(2) Where any part of the insured crop is lost or damaged in Stage 1, the Commission, upon application therefor in writing by the insured person, may consent in writing to,

- (a) the replanting of the damaged acreage; or
- (b) the abandonment or destruction of the insured crop on such damaged acreage and in such case the Commission shall determine the number of damaged acres and the potential value of production thereof.

(3) Where the damaged acreage is replanted to the insured crop in accordance with clause a of

subparagraph 2, the contract of insurance shall continue to apply to such replanted acreage.

(4) Where the damaged acreage is abandoned or destroyed in accordance with clause *b* of subparagraph 2, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated as,

- (a) 50 per cent of the coverage applicable to the damaged acreage; or
- (b) the difference between the coverage and the potential value of production for the damaged acreage,

whichever is the lesser.

(5) Notwithstanding any application made in writing by the insured person under this paragraph, the Commission may, where loss or damage occurs in Stage 1, notify the insured person in writing that it intends to terminate the insurance coverage on such damaged acreage and, in such case, no further indemnity shall be payable in respect of the damaged acreage.

STAGE 2

6.—(1) Stage 2 commences on the 1st day of July and for any part of the planted acreage ends with the completion of harvesting of such part.

(2) Where loss or damage occurs in Stage 2, the Commission, upon application therefor in writing by the insured person, may consent in writing to the use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage and, in such case, the Commission shall determine the number of damaged acres and the potential value of production thereof.

(3) Where,

- (a) damaged acreage is used for any other purpose or the insured crop thereon is abandoned or destroyed in accordance with subparagraph 2; or
- (b) the harvesting of any planted acreage is not completed on the date determined therefor,

the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated as the amount by which the coverage for the damaged or unharvested acreage, as the case may be, exceeds the potential value of production determined therefor.

(4) Where damaged acreage is not used for any other purpose or the crop thereon is not abandoned

or destroyed after the Commission has consented thereto, the amount of loss calculated under subparagraph 3 shall not be taken into account in the final adjustment of loss.

(5) Where the actual value of production of the acreage harvested determined in the manner prescribed by section 10 of the plan is less than the coverage for such acreage, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated as the difference between the coverage and the actual value of production.

EVALUATION OF LOSS

7. The amount of loss that shall be taken into account in the final adjustment of loss is the amount by which the total coverage prescribed by section 9 of the plan exceeds the sum of,

- (a) the total value of production of the insured crop or crops for the crop year determined in the manner prescribed by section 10 of the plan as evidenced by the processor's statement of production;
- (b) the value as determined by the Commission of the potential production of acreage unharvested for reasons other than the insured perils; and
- (c) any loss sustained by reason of a peril other than the perils designated in the plan.

MISREPRESENTATION, VIOLATION OF CONDITIONS OR FRAUD

8. Where the insured person,

- (a) in the application for insurance,
 - (i) gives false particulars of an insured crop to the prejudice of the Commission, or
 - (ii) knowingly misrepresents or fails to disclose any fact required to be stated therein;
- (b) contravenes a term or condition of the contract of insurance;
- (c) commits a fraud in respect of an insured crop; or
- (d) wilfully makes a false statement in respect of a claim under the contract of insurance,

a claim by the insured person is invalid and his right to recover indemnity is forfeited.

WAIVER OR ALTERATION

9. No term or condition of this contract shall be deemed to be waived or altered in whole or in part by the Commission unless the waiver or alteration is clearly expressed in writing signed by the Commission or a representative authorized for that purpose by the Commission.

INTEREST OF OTHER PERSONS

10. Notwithstanding that a person other than the insured person holds an interest of any kind in an insured crop, for the purposes of this contract,

- (a) the interest of the insured person in an insured crop is deemed to be the full value of the crop; and
- (b) except as provided in paragraph 11, no indemnity shall be paid to any person other than the insured person.

ASSIGNMENT OF RIGHT TO INDEMNITY

11. The insured person may assign all or part of his right to indemnity under this contract in respect of an insured crop but an assignment is not binding on the Commission and no payment of indemnity shall be made to an assignee unless,

- (a) the assignment is made on a form approved by the Commission; and
- (b) the Commission consents thereto in writing.

12.—(1) Where loss or damage to an insured crop results from one or more of the perils insured against and the damage was occasioned at a readily ascertainable time, the insured person shall notify the Commission forthwith by telephone and shall confirm in writing within three days of such time.

(2) Where loss or damage to an insured crop results from one or more of the perils insured against and it appears, or ought reasonably to appear to the insured person at any time after planting and before the completion of harvesting of the insured crop that the potential production of the insured crop has a value less than the total insured coverage, the insured person shall, as soon as the loss or damage is apparent, notify the Commission in writing forthwith.

(3) Notwithstanding any notice given by the insured person under this paragraph, where on completion of harvesting of an insured crop,

- (a) the actual value of production of the insured crop determined in the manner prescribed by section 10 of the plan is less than the total insured coverage; and
- (b) the loss resulted from one or more of the perils insured against,

the insured person shall notify the Commission in writing forthwith.

ABANDONMENT, DESTRUCTION
OR ALTERNATE USE

13.—(1) Acreage planted to an insured crop shall not be put to another use and the insured crop shall not be abandoned or destroyed until the Commission has appraised the potential production of the acreage.

(2) An appraisal made under subparagraph 1 shall not be taken into account in the final adjustment of loss where the insured person harvests the appraised acreage for processing.

ADJUSTMENT OF LOSS

14.—(1) The indemnity payable for loss or damage to an insured crop shall be determined in the manner prescribed by this contract.

(2) The Commission may cause the production of an insured crop to be appraised by any method that it deems proper.

(3) No indemnity shall be paid for a loss in respect of an insured crop unless the insured person establishes,

- (a) the total value of production of the insured crop for the crop year; and
- (b) that the loss in income or part thereof resulted directly from one or more of the perils insured against.

(4) Where a loss resulted partly from a peril insured against and partly from a cause of loss not insured against, the Commission shall determine the amount of the loss that resulted from the cause of loss not insured against, and the indemnity payable by the Commission under this contract shall be reduced accordingly.

PROOF OF LOSS

15.—(1) A claim for indemnity in respect of the insured crop shall be made on a proof of loss form provided by the Commission and shall be filed with the Commission not later than sixty days after,

- (a) the completion of harvesting of the last of the insured crops; or
- (b) the end of the crop year,

whichever is the earlier.

(2) Subject to subparagraph 3, a claim for indemnity shall be made by the insured person.

(3) A claim for indemnity may be made,

- (a) in the case of the absence or inability of the insured person, by his agent; or

to the extent thereof to all rights of recovery of the insured person against any person and may bring action in the name of the insured person to enforce those rights.

RIGHT OF ENTRY

19. The Commission has a right of entry to the premises of the insured person that may be exercised by agents of the Commission at any reasonable time or times for any purpose related to the contract of insurance.

WHEREAS the insured person has applied for
crop insurance on one or more crops under The
Crop Insurance Plan for Cabbage, Cauliflower and
Carrots, hereinafter referred to as "the plan";

NOW THEREFORE, subject to *The Crop Insurance
Act (Ontario)* and the regulations made thereunder,
where in a crop year the insured person suffers a
loss resulting from one or more of the perils
designated in the plan, the Commission, subject to
the terms and conditions hereinafter set forth,
agrees to indemnify the insured person in respect
of such loss.

CAUSES OF LOSS NOT INSURED AGAINST

1. This contract does not insure against and no
indemnity shall be paid in respect of a loss resulting
from,

- (a) the negligence, misconduct or poor farming practices of the insured person or his agents or employees;
- (b) a shortage of labour or machinery;
- (c) insect infestation or plant disease unless recommended spray programs were followed; or
- (d) a peril other than the perils designated in the plan.

EXTENT OF INSURANCE

2.—(1) The insured person shall offer for insurance all acreage planted in the crop year to the insured crop or crops on the farm or farms operated by him in Ontario, and, subject to subparagraph 2, this contract applies to all such acreage under contract to the processor or processors named in the application for insurance herein.

(2) This contract does not apply to, and no indemnity is payable in respect of, acreage planted to an insured crop,

- (a) that was not adequately prepared for cropping purposes;
- (b) that, in the opinion of the Commission, is not insurable;
- (c) for which a contract between the insured person and the processor is not in effect; or
- (d) on which the insured crop is a volunteer crop.

3.—(1) Where the acreage planted by the insured person in the crop year is not the same as that stated in the application for insurance, the insured person shall, not later than the 15th day of July, notify the Commission in writing of the actual acreage planted.

(2) Where the actual planted acreage of an insured crop is less than that stated in the application for insurance, the maximum amount of indemnity shall be reduced proportionately.

(3) Where the actual planted acreage of an insured crop is more than that stated in the application for insurance, the maximum amount of indemnity and the premium payable shall not be increased but the production from the total planted acreage shall be included in establishing the income of the insured person unless the processor increases the contract acreage accordingly.

HARVESTING OF PLANTED ACREAGE

4.—(1) All acreage planted to an insured crop in the crop year shall be harvested for processing unless the Commission, upon application therefor in writing, consents in writing to,

- (a) the use of the planted acreage or any part thereof for another purpose; or
- (b) the abandonment or destruction of the insured crop or any part thereof.

(2) The final date for the harvesting referred to in subparagraph 1 is noon on the 1st day of November or such other date as may be determined from time to time by the Commission.

(3) Where the harvesting of any planted acreage is not completed on the date prescribed by subparagraph 2, the insured person shall forthwith notify the Commission in writing.

(4) Where an insured person fails to notify the Commission in accordance with subparagraph 2, no indemnity shall be paid in respect of unharvested acreage.

STAGE 1

5.—(1) Stage 1 comprises the period from the date on which the planting of the acreage is completed to the 30th day of June.

(2) Where any part of the insured crop is lost or damaged in Stage 1, the Commission, upon application therefor in writing by the insured person, may consent in writing to,

- (a) the replanting of the damaged acreage; or
- (b) the abandonment or destruction of the insured crop on such damaged acreage and in such case the Commission shall determine the number of damaged acres and the potential value of production thereof.

(3) Where the damaged acreage is replanted to the insured crop in accordance with clause *a* of subparagraph 2, the contract of insurance shall continue to apply to such replanted acreage.

(4) Where the damaged acreage is abandoned or destroyed in accordance with clause *b* of subparagraph 2, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated as,

- (a) 50 per cent of the coverage applicable to the damaged acreage; or
- (b) the difference between the coverage and the potential value of production for the damaged acreage,

whichever is the lesser.

(5) Notwithstanding any application made in writing by the insured person under this paragraph, the Commission may, where loss or damage occurs in Stage 1, notify the insured person in writing that it intends to terminate the insurance coverage on such damaged acreage and, in such case, no further indemnity shall be payable in respect of the damaged acreage.

STAGE 2

6.—(1) Stage 2 commences on the 1st day of July and for any part of the planted acreage ends with the completion of harvesting of such part.

(2) Where loss or damage occurs in Stage 2, the Commission, upon application therefor in writing by the insured person, may consent in writing to the use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage and, in such case, the Commission shall determine the number of damaged acres and the potential value of production thereof.

(3) Where,

- (a) damaged acreage is used for any other purpose or the insured crop thereon is abandoned or destroyed in accordance with subparagraph 2; or
- (b) the harvesting of any planted acreage is not completed on the date determined therefor,

the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated as the amount by which the coverage for the damaged or unharvested acreage, as the case may be, exceeds the potential value of production determined therefor.

(4) Where damaged acreage is not used for any other purpose or the crop thereon is not abandoned or destroyed after the Commission has consented thereto, the amount of loss calculated under subparagraph 3 shall not be taken into account in the final adjustment of loss.

(5) Where the actual value of production of the acreage harvested determined in the manner prescribed by section 10 of the plan is less than the coverage for such acreage, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated as the difference between the coverage and the actual value of production.

EVALUATION OF LOSS

7. The amount of loss that shall be taken into account in the final adjustment of loss is the amount by which the total coverage prescribed by section 9 of the plan exceeds the sum of,

- (a) the total value of production of the insured crop or crops for the crop year determined in the manner prescribed by section 10 of the plan as evidenced by the processor's statement of production;
- (b) the value as determined by the Commission of the potential production of acreage unharvested for reasons other than the insured perils; and

- (c) any loss sustained by reason of a peril other than the perils designated in the plan.

MISREPRESENTATION, VIOLATION OF CONDITIONS OR FRAUD

8. Where the insured person,

- (a) in the application for insurance,
- (i) gives false particulars of an insured crop to the prejudice of the Commission, or
 - (ii) knowingly misrepresents or fails to disclose any fact required to be stated therein;
- (b) contravenes a term or condition of the contract of insurance;
- (c) commits a fraud in respect of an insured crop; or
- (d) wilfully makes a false statement in respect of a claim under the contract of insurance,

a claim by the insured person is invalid and his right to recover indemnity is forfeited.

WAIVER OR ALTERATION

9. No term or condition of this contract shall be deemed to be waived or altered in whole or in part by the Commission unless the waiver or alteration is clearly expressed in writing signed by the Commission or a representative authorized for that purpose by the Commission.

INTEREST OF OTHER PERSONS

10. Notwithstanding that a person other than the insured person holds an interest of any kind in an insured crop, for the purposes of this contract,

- (a) the interest of the insured person in an insured crop is deemed to be the full value of the crop; and
- (b) except as provided in paragraph 11, no indemnity shall be paid to any person other than the insured person.

ASSIGNMENT OF RIGHT TO INDEMNITY

11. The insured person may assign all or part of his right to indemnity under this contract in respect of an insured crop but an assignment is not binding on the Commission and no payment of indemnity shall be made to an assignee unless,

- (a) the assignment is made on a form approved by the Commission; and

- (b) the Commission consents thereto in writing.

12.—(1) Where loss or damage to an insured crop results from one or more of the perils insured against and the damage was occasioned at a readily ascertainable time, the insured person shall notify the Commission forthwith by telephone and shall confirm in writing within three days of such time.

(2) Where loss or damage to an insured crop results from one or more of the perils insured against and it appears, or ought reasonably to appear to the insured person at any time after planting and before the completion of harvesting of the insured crop that the potential production of the insured crop has a value less than the total insured coverage, the insured person shall, as soon as the loss or damage is apparent, notify the Commission in writing forthwith.

(3) Notwithstanding any notice given by the insured person under this paragraph, where on completion of harvesting of an insured crop,

- (a) the actual value of production of the insured crop determined in the manner prescribed by section 10 of the plan is less than the total insured coverage; and
- (b) the loss resulted from one or more of the perils insured against,

the insured person shall notify the Commission in writing forthwith.

ABANDONMENT, DESTRUCTION OR ALTERNATE USE

13.—(1) Acreage planted to an insured crop shall not be put to another use and the insured crop shall not be abandoned or destroyed until the Commission has appraised the potential production of the acreage.

(2) An appraisal made under subparagraph 1 shall not be taken into account in the final adjustment of loss where the insured person harvests the appraised acreage for processing.

ADJUSTMENT OF LOSS

14.—(1) The indemnity payable for loss or damage to an insured crop shall be determined in the manner prescribed by this contract.

(2) The Commission may cause the production of an insured crop to be appraised by any method that it deems proper.

(3) No indemnity shall be paid for a loss in respect of an insured crop unless the insured person establishes,

- (a) the total value of production of the insured crop for the crop year; and

(b) that the loss in income or part thereof resulted directly from one or more of the perils insured against.

(4) Where a loss resulted partly from a peril insured against and partly from a cause of loss not insured against, the Commission shall determine the amount of the loss that resulted from the cause of loss not insured against, and the indemnity payable by the Commission under this contract shall be reduced accordingly.

PROOF OF LOSS

15.—(1) A claim for indemnity in respect of the insured crop shall be made on a proof of loss form provided by the Commission and shall be filed with the Commission not later than sixty days after,

- (a) the completion of harvesting of the last of the insured crops; or
- (b) the end of the crop year,

whichever is the earlier.

(2) Subject to subparagraph 3, a claim for indemnity shall be made by the insured person.

(3) A claim for indemnity may be made,

- (a) in the case of the absence or inability of the insured person, by his agent; or
- (b) in the case of the absence or inability of the insured person or on his failure or refusal to do so, by an assignee under an assignment made in accordance with paragraph 11.

(4) Where required by the Commission, the information given in a proof of loss shall be verified by statutory declaration.

ARBITRATION

16. Where the Commission and the insured person fail to resolve any dispute respecting the adjustment of a loss under this contract, the matter shall be determined by arbitration in accordance with the regulations.

TIME FOR PAYMENT OF INDEMNITY

17.—(1) No indemnity under this contract becomes due and payable until,

(a) the end of the crop year; and

(b) the premium has been paid in full.

(2) Where the indemnity payable by the Commission under this contract is established by the filing of a proof of loss form or by an award of an arbitrator or board of arbitration, it shall be paid within sixty days of the receipt by the Commission of the proof of loss form or award, as the case may be.

(3) Nothing in this paragraph prevents the Commission from paying indemnity under this contract at an earlier date.

SUBROGATION

18. Where the Commission has paid a claim under this contract, the Commission is subrogated to the extent thereof to all rights of recovery of the insured person against any person and may bring action in the name of the insured person to enforce those rights.

RIGHT OF ENTRY

19. The Commission has a right of entry to the premises of the insured person that may be exercised by agents of the Commission at any reasonable time or times for any purpose related to the contract of insurance.

NOTICE

20.—(1) Any written notice to the Commission shall be given by delivery thereof or by sending it by mail to the Commission.

(2) Written notice to the insured person shall be given by delivery thereof or by sending it by mail addressed to him at his last post office address on file with the Commission.

- (b) a shortage of labour or machinery;
- (c) plant disease unless recommended spray programs were followed; or
- (d) a peril other than the perils designated in the plan.

EXTENT OF INSURANCE

2.—(1) The insured person shall offer for insurance all acreage planted in the crop year to the insured crop or crops on the farm or farms operated by him in Ontario, and, subject to subparagraph 2, this contract applies to all such acreage.

(2) This contract does not apply to, and no indemnity is payable in respect of, acreage planted to an insured crop,

- (d) on which the insured crop is a volunteer crop.

3.—(1) Where the acreage planted by the insured person in the crop year is not the same as that stated in the application for insurance, the insured person shall, not later than the 15th day of July, notify the Commission in writing of the actual acreage planted.

(2) Where the actual planted acreage of an insured crop is less than that stated in the applica-

tion for insurance, the maximum amount of indemnity shall be reduced proportionately.

(3) Where the actual planted acreage of an insured crop is more than that stated in the application for insurance, the maximum amount of indemnity and the premium payable shall not be increased but the production from the total planted acreage shall be included in establishing the income of the insured person.

HARVESTING OF PLANTED ACREAGE

4.—(1) All acreage planted to an insured crop in the crop year shall be harvested for the fresh market unless the Commission, upon application therefor in writing, consents in writing to,

- (a) the use of the planted acreage or any part thereof for another purpose; or

(4) Where an insured person fails to notify the Commission in accordance with subparagraph 2, no indemnity shall be paid in respect of unharvested acreage.

(4) Where,

- (a) damaged acreage is abandoned or destroyed in accordance with clause *b* of subparagraph 1; or
- (b) the harvesting of any planted acreage is not completed on the date determined therefor,

the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated as the amount by which the coverage for the damaged or unharvested acreage, as the case may be, exceeds the potential value of production determined therefor.

(5) Where damaged acreage is not used for any other purpose or the crop thereon is not abandoned or destroyed after the Commission has consented thereto, the amount of loss calculated under subparagraph 4 shall not be taken into account in the final adjustment of loss.

(6) Where the actual value of production of the acreage harvested determined in the manner prescribed by section 10 of the plan is less than the coverage for such acreage, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated as the difference between the coverage and the actual value of production.

EVALUATION OF LOSS

6. The amount of loss that shall be taken into account in the final adjustment of loss is the amount by which the total coverage prescribed by section 9 of the plan exceeds the sum of,

- (a) the total value of production of the insured crop or crops for the crop year determined in the manner prescribed by section 10 of the plan;
- (b) the value as determined by the Commission of the potential production of acreage unharvested for reasons other than the insured perils; and
- (c) any loss sustained by reason of a peril other than the perils designated in the plan.

8. No term or condition of this contract shall be deemed to be waived or altered in whole or in part by the Commission unless the waiver or alteration is clearly expressed in writing signed by the Commission or a representative authorized for that purpose by the Commission.

INTEREST OF OTHER PERSONS

9. Notwithstanding that a person other than the insured person holds an interest of any kind in an insured crop, for the purposes of this contract,

- (a) the interest of the insured person in an insured crop is deemed to be the full value of the crop; and
- (b) except as provided in paragraph 10, no indemnity shall be paid to any person other than the insured person.

ASSIGNMENT OF RIGHT TO INDEMNITY

10. The insured person may assign all or part of his right to indemnity under this contract in respect of an insured crop but an assignment is not binding on the Commission and no payment of indemnity shall be made to an assignee unless,

- (a) the assignment is made on a form approved by the Commission; and
- (b) the Commission consents thereto in writing.

11.—(1) Where loss or damage to an insured crop results from one or more of the perils insured against and the damage was occasioned at a readily ascertainable time, the insured person shall notify the Commission forthwith by telephone and shall confirm in writing within three days of such time.

(2) Where loss or damage to an insured crop results from one or more of the perils insured against

and it appears, or ought reasonably to appear to the insured person at any time after planting and before the completion of harvesting of the insured crop that the potential production of the insured crop has a value less than the total insured coverage, the insured person shall, as soon as the loss or damage is apparent, notify the Commission in writing forthwith.

(3) Notwithstanding any notice given by the insured person under this paragraph, where on completion of harvesting of an insured crop,

- (a) the actual value of production of the insured crop determined in the manner prescribed by section 10 of the plan is less than the total insured coverage; and
- (b) the loss resulted from one or more of the perils insured against,

the insured person shall notify the Commission in writing forthwith.

ABANDONMENT, DESTRUCTION OR ALTERNATE USE

12.—(1) Acreage planted to an insured crop shall not be put to another use and the insured crop shall not be abandoned or destroyed until the Commission has appraised the potential production of the acreage.

(2) An appraisal made under subparagraph 1 shall not be taken into account in the final adjustment of loss where the insured person harvests the appraised acreage.

ADJUSTMENT OF LOSS

13.—(1) The indemnity payable for loss or damage to an insured crop shall be determined in the manner prescribed by this contract.

(2) The Commission may cause the production of an insured crop to be appraised by any method that it deems proper.

(3) No indemnity shall be paid for a loss in respect of an insured crop unless the insured person establishes,

- (a) the total value of production of the insured crop for the crop year; and
- (b) that the loss in income or part thereof resulted directly from one or more of the perils insured against.

(4) Where a loss resulted partly from a peril insured against and partly from a cause of loss not insured against, the Commission shall determine the amount of the loss that resulted from the cause of loss not insured against, and the indemnity payable by the Commission under this contract shall be reduced accordingly.

PROOF OF LOSS

14.—(1) A claim for indemnity in respect of the insured crop shall be made on a proof of loss form provided by the Commission and shall be filed with the Commission not later than sixty days after,

- (a) the completion of harvesting of the last of the insured crops; or
- (b) the end of the crop year,

whichever is the earlier.

(2) Subject to subparagraph 3, a claim for indemnity shall be made by the insured person.

(3) A claim for indemnity may be made,

- (a) in the case of the absence or inability of the insured person, by his agent; or
- (b) in the case of the absence or inability of the insured person or on his failure or refusal to do so, by an assignee under an assignment made in accordance with paragraph 10.

(4) Where required by the Commission, the information given in a proof of loss shall be verified by statutory declaration.

ARBITRATION

15. Where the Commission and the insured person fail to resolve any dispute respecting the adjustment of a loss under this contract, the matter shall be determined by arbitration in accordance with the regulations.

TIME FOR PAYMENT OF INDEMNITY

16.—(1) No indemnity under this contract becomes due and payable until,

- (a) the end of the crop year; and
- (b) the premium has been paid in full.

(2) Where the indemnity payable by the Commission under this contract is established by the filing of a proof of loss form or by an award of an arbitrator or board of arbitration, it shall be paid within sixty days of the receipt by the Commission of the proof of loss form or award, as the case may be.

(3) Nothing in this paragraph prevents the Commission from paying indemnity under this contract at an earlier date.

SUBROGATION

- (g) the presiding Panel had no evidence before it to decide the original intention of the licence or the competitive situation in Sudbury, but purported to determine the matter of the transfers on the basis of such matters; and
- (h) the presiding Panel confused the issues before it in that it failed to address its mind to the proper determination of the Board's statutory duty in such matters.

Treasurer's Sale of Lands for Taxes

Each year, municipal and county treasurers compile a list of properties against which taxes are outstanding for at least two successive years, which is a period sufficient to permit sale of the owner's assets to reimburse the municipality. These lists are submitted by the municipal representative to the Ministry of Government Services for publication in THE ONTARIO GAZETTE.

The Gazette is published every Saturday. Tax sale lands are included only in the issue of the first Saturday of each month. Each property is described so that it may be properly identified. Also shown are the amount of tax arrears and costs, and the date, time and place where the sale will be held, which is usually in a public building in the locality. Sales are held three months or later following the date of publication in the Gazette and are subject to a reserve bid equal to the amount of tax arrears and costs.

The previous owner may by law redeem the property any time within one year and one day after the date of tax sale by paying to the municipality all arrears plus costs levied. Where redemption occurs, the municipality reimburses the purchaser of tax sale lands for the amount paid at the sale plus an additional amount to be determined in each case.

If the land is not redeemed in the manner described above, the purchaser at sale, receives from the municipality a tax deed or certificate which should be registered in the appropriate Land Titles or Registry Office. A purchaser should ascertain from either of these offices, information relating to any of the charges or liens against the land and consider the advisability of employing the services of a solicitor to determine the extent, if any, of his liability.

The foregoing applies to tax sale lands which were privately owned. In the event the land is the property of the Crown as represented by the Province of Ontario, only the improvements on the property, such as buildings, may be sold. In this case, an intending purchaser should for his own protection ascertain from the local office of the Ministry of Natural Resources whether or not the land or any part can be purchased or leased from the Ministry. If it cannot, then the purchaser of the improvements would be required to remove them from the land.

In some cases, land advertised for sale in the Gazette may be bought by the municipality, or the owner, prior to sale, may pay the tax arrears and costs. Where this occurs, the land is removed from the tax sale lists.

NOTICE OF MOTION

OF

Stan's Cartage, Movers and Storage Limited

TAKE NOTICE that a motion will be made before the presiding panel of the Ontario Highway Transport Board pursuant to Section 17 of *The Ontario Highway Transport Board Act*, R.S.O. 1970, Chapter 316, on a date to be fixed by the Honourable Chairman of the said Board, for an Order directing or reopening of the said Review and permitting:

- (a) a full rehearing of the said Review before a panel comprised of Members other than Vice-Chairman G. V. Norton, Esq.
- (b) A rehearing by way of argument only.
- (c) Such further and other Order as this Honourable Board may deem just.

The grounds upon which this Notice is based are as follows:

1. The sitting panel erred in its conclusion that movements pursuant to Section 47 of the regulations made pursuant to the General Order of Trucking of the Province of Quebec, were not permitted to be engaged in by the applicant.
2. The sitting panel failed to fully appreciate the effect that this conclusion would have on the Reviewee.

- (a) the decision of the presiding Panel against the evidence and the weight of the evidence;
- (b) there was no evidence that the wording of the Reviewee's licence as issued on August 29th, 1960 was intended to be restricted to the movement of heavy-duty construction machinery only;
- (c) there was evidence that the Reviewee Company had carried on a business pursuant to the licence and had carried machinery that was not heavy-duty construction machinery;
- (d) by adding the term, "heavy-duty construction" before the word machinery in public commercial vehicle operating licence K-302, the Sitting Panel reduced the Reviewee's operating authority from that granted by the Board in its original Certificate, such action being contrary to the long standing policy of resolving licensing ambiguities in favour of the Carrier; and
- (e) upon such further and other grounds as Counsel may advise.

AND TAKE NOTICE that in support of the Motion, the Notice of Review will be read and the proceedings and exhibits filed herein and such further

and other material as Counsel may advise and the Board permit will be referred to or read.

Page, Esquire and J. A. Wardrop, Esquire, as set out in the Reasons for Decision, dated January 20th, 1978, and directing a re-hearing of the Review by a new Panel on the following grounds:

- (a) The Learned Panel erred in its interpretation of the *Motor Vehicle Transport Act* as the same pertains to Ontario-based carriers and their dealing in international traffic;
- (b) The reasons for Decision as published by the Learned Panel appear to create two different answers for the same question thus creating a sense of confusion in the public mind as to the intention of the Board.

The Ontario Highway Transport Board, pursuant to Section 17 of *The Ontario Highway Transport Board Act*, R.S.O. 1970, Chapter 316, will review the terms of the certificates pursuant to which Class 'C' 1229 public commercial vehicle operating licence No. 1229, and Class 'K' public commercial vehicle operating licence No. K284 were issued, as it is alleged as follows: 1. The original Class 'K' authority was issued to Johnson Cartage Sudbury Limited in or about 1959. At that time, public commercial vehicle operators had to licence trailers as well as power units. The former Department of Highways, would not permit Class 'C' carriers to licence float trailers unless they were the holder of a Class 'K' public commercial vehicle operating licence issued in conjunction with their Class 'C' authority. Johnson Cartage Sudbury Limited operated one trucking business in 1959 when it made the Class 'K' application and continues to operate one business as of this time. 2. On a hearing for transfer held in Toronto on March 23rd, 1978, N.A. Chalut Trucking Limited, which was applying for the transfer of the Class 'K' authority of Johnson Cartage Sudbury Limited, testified that, in its opinion, the licence permitted the movement of goods to all parts of Ontario from points within a 125-mile radius of Sudbury. The history of the licence and the bills of lading filed with the Board at that hearing, establish that the licence is restricted to movements within a 125-mile radius of Sudbury. In fact, the bills of lading filed showed only three minor moves beyond that radius. And has fixed Monday, the 17th day of July, 1978, at its Chambers, Britannica House, 151 Bloor Street West, 10th Floor, Toronto, Ontario, at 10 a.m. (E.D.S.T.) for that purpose.

The Board may amend or revoke the terms of the said certificates.

PUBLIC NOTICE

PUBLIC NOTICE IS HEREBY GIVEN that the Minister of Consumer and Commercial Relations, as Minister in charge of the administration of *The Loan and Trust Corporations Act*, has issued the following Certificate:

MINISTRY OF CONSUMER AND COMMERCIAL RELATIONS

IN THE MATTER OF *The Loan and Trust Corporations Act*, Revised Statutes of Ontario, 1970, Chapter 254, and

IN THE MATTER OF the amalgamation under the said Act of M.I.T.E. Holdings Ltd. and Vanguard Trust of Canada Limited.

The Minister of Consumer and Commercial Relations for the Province of Ontario, being the Minister under whose direction *The Loan and Trust Corporations Act* of the said Province is administered, HEREBY CERTIFIES THAT, pursuant to the said Act, an Agreement, bearing date the 17th day of April, 1978, entered into between the said Corporations, providing for the amalgamation of M.I.T.E. Holdings Ltd. and Vanguard Trust of Canada Limited, the continuing corporation to be a trust company under the name of Vanguard Trust of Canada Limited and, in French, Le Trust Vanguard Limitée, and duly executed by M.I.T.E. Holdings Ltd. and ratified and confirmed by the shareholders thereof on the 23rd day of May, 1978, and also duly executed by Vanguard Trust of Canada Limited and ratified and confirmed by the shareholders thereof on the 23rd day of May, 1978, was by Order-in-Council O.C. 1617/78 dated the 31st day of May, 1978, assented to by Her Honour the Lieutenant Governor in Council, such assent to be effective on the 31st day of May, 1978, and that on, from and after the 31st day of May, 1978, all the terms, provisions and conditions of the said Agreement and of the said *The Loan and Trust Corporations Act* relating thereto went into full force and effect.

This Certificate is given under section 111 of the said *The Loan and Trust Corporations Act*, being Chapter 254 of the Revised Statutes of Ontario, 1970.

THE ENVIRONMENTAL ASSESSMENT ACT, 1975

Exemption Section 30

Having received a request from the Ministry of Government Services that an undertaking namely:

The activity of constructing an Ontario Government Building in the City of Hamilton at the corner of King Street and McNab Street in the Lloyd D. Jackson Square,

be exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

1. The Corporation of the City of Hamilton will be interfered with if the construction of the facility is delayed in that the building has been designed as an integral component of the Convention Centre and the surrounding Lloyd D. Jackson Square which are not presently subject to the Act, and
2. The public will be interfered with and damaged if the construction of the facility is delayed from its schedule in that the economic viability of the surrounding commercial development is tied to achieving densities and traffic patterns that would be associated with the proposed project;

Having weighed such injury, damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order that the undertaking is exempt from the application of the Act for the following reasons:

1. The undertaking is an integral component of the urban renewal program of the muni-

cipality and was agreed to in principle by Management Board of Cabinet prior to the coming into force of the Act with respect to the undertaking,

2. An environmental assessment conducted on the undertaking would be very limited in scope and of little benefit, as the undertaking is only a part of a larger development, the other components of which are not presently subject to the Act, therefore, the delay and expense involved in preparing such an environmental assessment would not be warranted,
3. I am advised by the Ministry of Government Services that the Municipality in which the undertaking is proposed to be located has confirmed that the municipal services are adequate to service the proposed facilities and the proposed use of the land is consistent with the official plan and zoning by-laws affecting the site, and
4. The activity of construction as well as the operation of this component of the scheme will bring economic benefits to the Hamilton community and will help in the revitalization of the downtown core.

This exemption is subject to the following terms and conditions:

1. That tenders for construction be awarded no later than December 31, 1982.

This order comes into force and has effect on and after the date upon which it is signed.

Dated at Toronto, this 2nd day of June, 1978.

THE ENVIRONMENTAL ASSESSMENT ACT, 1975

Exemption Section 30

Having received a request from the Minister of Natural Resources that an undertaking, namely:

The activity of constructing in the South Nation River Basin, the Chesterville Channelization Project,

be exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

The Crown, the municipalities of the South Nation Basin involved, and the residents would be damaged and interfered with by the time required for the undertaking to obtain approval under *The Environmental Assessment Act*,

Having weighed such injury, damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order that the undertaking is exempt from the application of the Act for the following reasons:

1. The interference and damage which would occur from continuing flooding and erosion actions resulting from the delay for the preparation and review of an environmental assessment would be undue; and
2. That one of the purposes of the undertaking is to provide modest flood relief from late spring and summer floods and to provide data for The South Nation River Basin Study to determine the ultimate amount of channel works required, and further while these immediate channel works may cause, or be perceived to cause, increased flooding in the downstream areas, in the long run they will not likely seriously compromise the ultimate solution to the problems to the South Nation River Basin.

This exemption is subject to the following terms and conditions:

1. The construction of works to be carried out in accordance with construction and site restoration guidelines as prepared by the Interministerial Project Advisory Committee of the Ontario Ministry of Agriculture and Food, Ministry of the Environment, Ministry of Natural Resources and South Nation Conservation Authority and approved by the Environmental Approvals Branch; and
2. The Environmental Assessment Section of the Environmental Approvals Branch be involved in all stages of planning of the undertaking.

This order comes into force and has effect on and after the date upon which it is signed.

Dated at Toronto, this 2nd day of June, 1978.

GEORGE R. McCAGUE,
Minister of the Environment.
